

Kelli Renea Oglesby
Anchor Realty Florida

Brought up in the small town of Millington, TN --- outside of Memphis --- where she started her life journey in nursing, Kelli moved to NW Florida in 2007. Her Tennessee credentials were not recognized by the state of Florida; this turned out to be instrumental to Kelli's success. This motivated her to get her real estate license in 2008. From this point, success became her travel companion: "Rookie of year" from her national brokerage in 2009; "Top Producer" twice since; and recently, "Excellence Award" for the state of Florida. Even in today's sellers' market, Kelli managed to have millions in listed properties. Destin, Miramar and 30-A have become her turf, where she has been a top producer; in 2017, between January and September, her production of \$10 million in sales places her at the very top of agents. In addition to her dreadful efficiency in real estate, Kelli finds the time to be a caring mother of four, two teenagers and two toddlers. In her "off time", she travels with her kids - dance, cross-country and volleyball... And, if there is a bit of time left, she goes to a health club for fitness and body building, where she competed and placed 1st in Competition (as well as other placements) and is now currently Nationally Qualified to compete at a Higher Level.
